TRAFFIC ENGINEERING & CONTROL

INDEX TO VOLUME 16

January 1975 – December 1975

	Month	Page
Auckland central area traffic signal control system, P. W. Hall	January	10
Automatic traffic data system for West Sussex County, B. G. Ratcliffe and D. F. Mackie	January	15
Bristol area land-use/transportation study —1. The study procedures and recommendations, G. M. Lamb, A. M. Bloxsom and C. R. Eastman	December	540
Bus priority and modal split, L. J. S. Lesley	March	127
Car Travel, 1965–75, with particular reference to pleasure travel and highway planning, J. R. Duffell	December	557
A comparative study of traffic control schemes at an isolated intersection, K. F. Nip	June	264
A comparative study of traffic control systems at a network of signalised intersections, K. F. Nip	November	485
Conference and symposium reports		
Better towns with less traffic, OECD Conference, Paris, April 14–16	June	287
Operating public transport, University of Newcastle upon Tyne 6th annual symposium, April 15–17, A. D. Smare	July/Aug.	335
Traffic equilibrium methods, International symposium on, Montreal, Nov. 21–23 1974, J. Murchland and M. Wigan	March	140
Transport-Expo 75, Le Bourget, April 15–20	June	293
Transport for Society, Institution of Civil Engineers Conference summing-up, Brighton, Nov. 11–13, B. V. Martin	December	564
Transportation and urban life, NATO conference, Munich, Sept. 15–19, P. Rice	November	497
Universities Transport Studies Group Seventh Conference, University of Surrey, Jan. 7–9, D. Maltby	May	234
Criteria for defining sub-areas for use in computer-controlled area traffic networks, A. J. Al-Khalili	June	280
Cross cordon traffic flow matrices from roadside interviews, M. G. M. Glen and P. Hague	July/Aug.	320
Croydon-New Addington transport feasibility study, T. E. Weaver and R. C. Winfield	April	174
Delays caused by traffic signal failures, H. T. Tillotson	October	420
The detection and identification of vehicles using seismic techniques, C. E. Pykett	July/Aug.	317
Determining the width of residential streets, H. H. Topp	November	481
A digital road link for determining quickest routes, J. M. Bullingham and M. R. Sach	September	376
The distribution of household income in trip generation, I. H. Mackinder, S. E. Evans and R. May	December	546
The distribution of public transport services in London, P. Liivamagi and R. J. Vaughan	November	493
The environmental effects of urban road traffic:		
1. Predictive models, F. E. Joyce, H. E. Williams and D. M. Johnson	March	130
2. Evaluating alternative transport proposals, H. E. Williams, F. E. Joyce and D. M. Johnson	April	168
Evaluation of organised bus platooning in an urban area, H. J. Bauer, R. A. White and R. L. Tobin	July/Aug.	314
Focuses on		
Handling traffic data	January	15
Signs and markings	February	91
Pedestrains and safety	March	118
Guided urban transport	April	172
Planning for parking	May	220
Area traffic control	September	379
Forecasting the number and characteristics of potential users of park-and-ride in Oxford, D. B. Papoulias and I. G. Heggie	December	549
Greater London Transportation Survey		
1. Organisation of the surveys, D. E. Weald	May	212
2. Processing the data, J. A. Fryer, B. B. Hasell, M. P. Ness and A. A. Stroud	June	270
3. Results and applications, J. E. R. Smith and P. Prestwood Smith	July/Aug.	332
Identifying recreation trip origins using the registration number plate, J. R. Duffell	January	31
The impact on accidents of the introduction of mini, small and large roundabouts at major/minor priority junctions, N. Lalani	December	560
Impressions of public transport in the United States of America, D. Bayliss	April	185
King's Lynn transportation study: a low-cost exercise, R. Bennett, J. E. Burrell, D. H. Crompton and P. F. Withrington	June	273
Measurement of vehicle following times and speeds, R. Sumner	July/Aug.	327
Measurements of following-behaviour still imprecise (Result of SWOV research project)	January	23
A method to design cycle time for a signal-controlled pedestrian crossing, K. S. Pillai	March	120
A method of collecting data on speeds and headways on a motorway, D. M. Branston	October	437
A methodology for measuring screen-line traffic volumes, A. L. Roark, H. Levinson and J. S. Guhin	October	423
Minitram in Sheffield: a consultant's view, W. Bordass	April	172
Monitoring area control, A. Williman and D. R. Gordon	September	379
Motorway merging under high-speed, free-flow conditions, L. W. Ackroyd and A. J. Madden	June	283
Movable traffic devices in Australia	February	91
A new study of the traffic flow/concentration relationship, W. S. Leung and C. C. Lau	September	386
Nordic road data banks, R. Bydler, P. Knekt and V. Salovaara	November	478
A note on the Intervening Opportunities Model, A. Scott MacLean	November	499

	Month	Page
Observations on an urban transport planning study in Fiji, M. R. J. Ford and G. F. Self	July/Aug.	324
Parking control: experience and problems in London, A. D. May	May	227
Parking models in transportation planning, M. R. Wigan	November	488
A pedestrian origin-destination survey for the siting of a Pelican crossing, G. R. Woods	July/Aug.	228
Physical restraint—Greater London's cordon restraint study, J. A. Cracknell, B. V. Martin, A. D. May and D. Pickering	September	368
A possible design criteria for pavement width, R. E. Collis	March	123
The prediction of platoon dispersion based on rectangular distribution of journey time, M. Tracz	November	490
Prediction of traffic and parking load for a teaching hospital site, E. M. Davies	May	224
The problem of route selection in a large rural area, J. D. Smith and N. E. Weeks	March	114
Progress in planning urban passenger transit in Australasia and Japan, G. Woodling and R. Marshall	April	178
The redistributional effects of an area traffic control policy, M. J. Maher and R. Akcelik	September	383
Report from Crowthorne—TRRL 1974 Annual Report and 1975 Open Days	July/Aug.	336
A review of the Ramsey-Routledge method for gap acceptance times, R. J. Troutbeck	September	373
Road Safety: the French experience, C. Gérondeau	February	68
Safety of pedestrian crossing facilities (SWOV Report)	March	124
Simulation of traffic flows in a road network, P. J. Grigg and M. G. Hartley	February	75
Some characteristics of disabled vehicles on the Lancashire motorway system, R. J. Salter and K. S. Jadaan	November	495
Some factors affecting the capacity of a series of signalised intersections, R. J. Vaughan	October	426
Some safety considerations in the conversion of Zebra crossings to Pelican crossings, D. S. Rayner	March	123
Speeds, flows and journey times on road links in West Central London, C. C. Wright	January	12
A stochastic parking problem, M. J. Maher and M. C. Birchall	May	220
Supplementary licensing: an evaluation, A. D. May	April	162
Time-lapse aerial photography: application to traffic surveys, J. E. Ashwood and P. F. Inglis	January	19
Traffic control in the New Covent Garden Market	October	437
Traffic Studies Group, UCL		
A method of collecting data on speeds and headways on a motorway, D. M. Branston	October	430
Use of the moving car observer method on one-way roads, T. H. Bennett	October	432
Progress report 1974, R. J. Smeed	February	78
Transport and road research 1973—Annual Report	February	89
Transport and Road Research 1974	July/Aug.	336
Transport research by SRC grant: reports for 1974	March	135
Cranfield Centre for Transport Studies, J. M. Clark	May	232
Loughborough University of Technology Transport Technology Assessment Group, N. Ashford	March	139
University of Leeds, Institute for Transport Studies, P. J. Hills	March	135
University of Newcastle upon Tyne Transportation Operations Research Group, R. E. Allsop	March	137
The Transport Studies Group of the Polytechnic of Central London	September	388
Transportation planning in Nairobi, M. C. Mogridge	January	40
Trip generation and modal split of shopping trips, R. Barrett	February	72
UCL Traffic Studies Group: progress report 1974, R. J. Smeed	February	78
Urban road network size: some Dutch findings, G. R. M. Jansen and P. H. L. Bovy	October	414
Use of the moving car observer method on one-way roads, T. H. Bennett	October	432
The use of the TRRL Transyt method, D. I. Robertson	December	562
Vehicle speeds and paths at rural diamond roundabout motorway interchanges, L. W. Ackroyd and A. J. Madden	May	215
Warrants for different types of pedestrian crossing based on delay to vehicles, K. S. Pillai	March	118
Wedding the new to the traditional in bus transit: Door-to-door and fixed-route systems combined in California, J. T. Pott and R. G. Helsing	April	182
'Your City—Your Choice': a public opinion survey for Southampton, W. R. Gregory and J. Robbins	Februar	64

INDEX TO AUTHORS

Ackroyd, L. W. and A. J. Madden—Motorway merging under high-speed, free-flow conditions	June	283
Ackroyd, L. W. and A. J. Madden—Vehicle speeds and paths at rural diamond roundabout motorway interchanges	May	215
Akcelik, R. and M. J. Maher—The redistributional effects of an area traffic control policy	September	383
Al-Khalili, A. J.—Criteria for defining sub-areas for use in computer-controlled area traffic networks	June	280
Allsop, R. E. Transport research by SRC grant: University of Newcastle upon Tyne Transportation operations Research Group	March	137
Ashford, N. Transport research by SRC grant: Loughborough University of technology Assessment Group	March	139
Ashwood, J. E. and P. F. Inglis—Time-lapse aerial photography: application to traffic surveys	January	19
Barrett, R.—Trip generation and modal split of shopping trips	February	72
Bauer, H. J., R. A. White and R. L. Tobin—Evaluation of organised bus platooning in an urban area	July/Aug.	314
Bayliss, D.—Impressions of public transport in the United States of America	April	185
Bennett, R., J. E. Burrell, D. H. Crompton and P. F. Withrington—King's Lynn transportation study: a low-cost exercise	June	273
Bennett, T. H.—Use of the moving car observer method on one-way roads	October	432
Birchall, M. C. and M. J. Maher—A stochastic parking problem	May	220
Bloxsom, A. M., G. M. Lamb and C. R. Eastman—Bristol area land-use/transportation study. 1. The study procedures and recommendations	December	540
Bordass, W.—Minitram in Sheffield: a consultant's view	April	172
Bovy, P. H. L. and G. R. M. Jansen—Urban road network size: some Dutch findings	October	414

	Month	Page
Branston, D. M.—A method of collecting data on speeds and headways on a motorway	October	430
Bullingham, J. M. and M. R. Sach—A digital road link for determining quickest routes	September	376
Burrell, J. E., R. Bennett, D. H. Crompton and P. F. Withrington—King's Lynn transportation study: a low-cost exercise	June	273
Bydler, R., P. Knekt and V. Salovaara—Nordic road data banks	November	478
